ZODIAC

MARK I JUNIOR

THE FIRST BOAT

The MARK I JUNIOR represents the perfect introduction into inflatable boating. Designed with simplicity, its light weight needs only a small economical motor to discover those hidden coves you have always dreamt about. A front spray hood offers protection when the going gets wet and a simple three section floorboard system with a fitted inflatable keel provides rigidity and exceptional directional stability. Get into inflatable boating, the ZODIAC way !

Characteristics :

DIMENSIONS	L Overall	10'6"
	B Overall	4'10"
	L Inside	5'4"
	W Inside	2'2"
	Pontoon diameter	16"
CAPACITY	Persons	4
	Maximum pay load	880 Lbs
SAFETY	Number of air tight compartments	2 + 1 inflatable keel
	Number of valves	2 + 1
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	3'2" x 1'8" x 16"	
	3'2" x 6" x 4"	
	Weight of boat folded in bags	97 Lbs
ENGINES FOR	Fishing/Pottering, suggested HP capacity	4 HP/6 HP
	Maximum HP capacity rating	10 HP

SPECIAL FEATURES

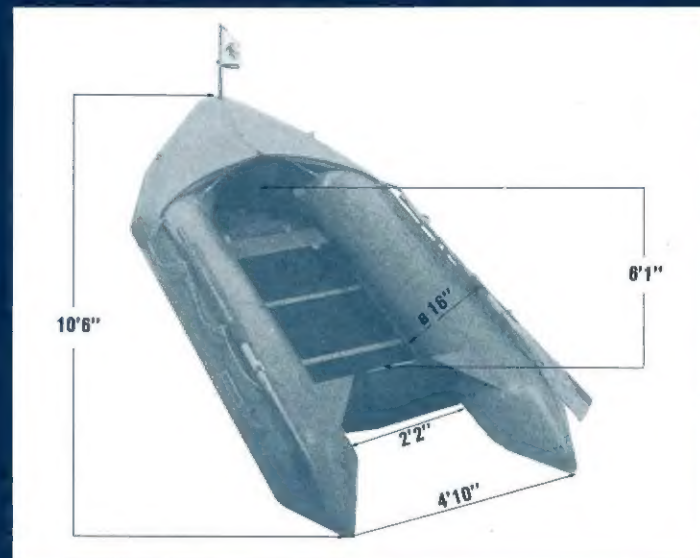

- Marine-ply floorboards in 3 sections + bow board.
 - Fitted front spray hood.
- Complete lists of standard and optional equipment on last page.

MARK I DE LUXE

SOPHISTICATION

Just a glance at the DE LUXE features on our new MARK I should tell you what sophistication is all about. Features from the "convertible" zippered spray hood and single inflation point, right through to the 25 HP capacity transom and deep inflatable keel put this boat into a class of its own. Just choose the horsepower you want for hunting, skiing or just cruising and find out what ZODIAC DE LUXE boating really is.

Characteristics :

DIMENSIONS	L Overall	10'6"
	B Overall	4'10"
	L Inside with spray hood open	6'1"
	W Inside	2'2"
	Pontoon diameter	16"
CAPACITY	Persons	4
	Maximum pay load	880 Lbs
SAFETY	Number of air tight compartments	2 + 1 inflatable keel
	Number of intercom. valves	1
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	3'2" x 1'10" x 1'8"	
	3'2" x 6" x 4"	
	Weight of boat folded in bags	111 Lbs
ENGINES FOR	Fishing/Pottering, suggested HP capacity	4 HP
	Skiing	15/20 HP
	Maximum HP capacity rating	25 HP

SPECIAL FEATURES

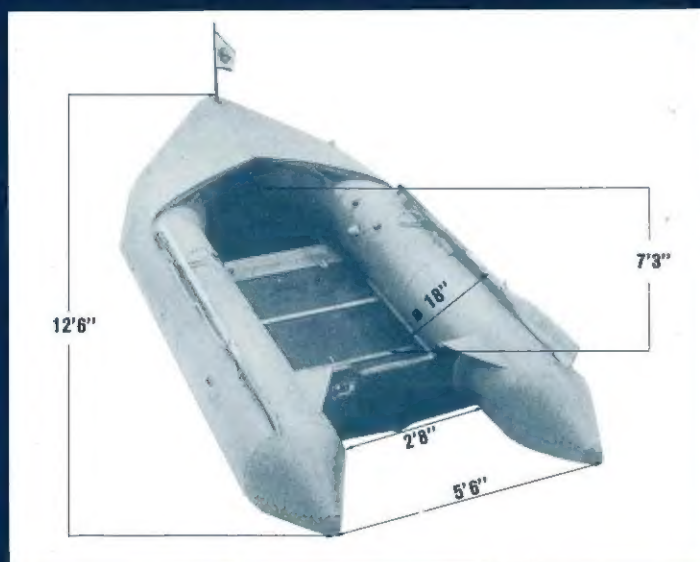

- Marine-ply floorboards in 3 sections + bow board.
 - "Convertible" spray hood unzips to allow full use of the internal dimensions of the boat.
 - One intercommunicating valve allows inflation from one point.
 - 2 anti-splash flaps on the transom.
 - Multi ply marine grade mahogany transom can take 25 Hp.
 - 2 carrying handles + bow handle for portability.
 - 2 large diameter self-bailers.
- Complete lists of standard and optional equipment on last page.

MARK II COMPACT

THE FAMILY BOAT

Add a new dimension to your family's leisure ! The Compact takes 5 to 6 people safely to your secluded beach powered by an economical 25 HP engine. Exciting skiing with a powerful 40 HP. Skin diving for two perhaps, with a 15 HP. But remember ! A Compact fits into any family saloon and kids can assemble and launch it anywhere and in less time than a rigid boat from a trailer. Check around and ask somebody who owns one.

Characteristics :

DIMENSIONS	L Overall	12'6"
	B Overall	5'6"
	L Inside with spray hood open	7'3"
	W Inside	2'8"
	Pontoon diameter	18"
CAPACITY	Persons	5/6
	Maximum pay load	1.320 Lbs
SAFETY	Number of air tight compartments	3 + 1 inflatable keel
	Number of valves	3 + 1
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	3'10" x 2' x 10"	
	3'8" x 2' x 8"	
ENGINES FOR	Weight of boat folded in bags	147 Lbs
	Fishing/Pottering, suggested HP capacity	5 HP
	Skiing, suggested HP capacity	20/25 HP
	Maximum HP capacity rating	40 HP

SPECIAL FEATURES

- Marine-ply floorboards in 3 sections + bow board.
- "Convertible" spray-hood unzips to allow full use of the internal dimensions of the boat.
- 2 anti-splash flaps on the transom, one of which is removable to allow for an auxiliary engine.
- 2 carrying handles + bow handle for portability.
- 2 large diameter self-bailers.

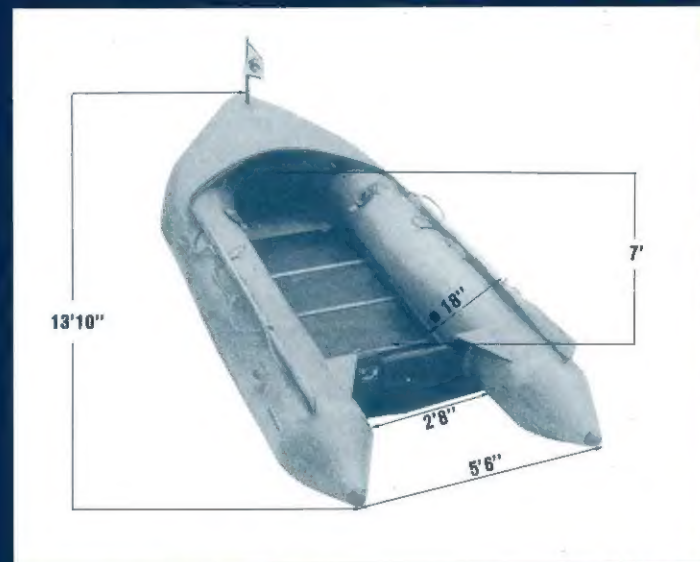

Complete lists of standard and optional equipment on last page.

MARK II

"OLD FAITHFUL"

The original ZODIAC and also our most popular boat over the years. It holds an enviable place in inflatable boating, but still, it more than meets the requirements as assembly and inflation is quick and it can be easily carried by two people. It can plane with a 10 HP or ski with a 20 HP. Ask your dealer to show you the relief valve system and the aluminium stringers on "OLD FAITHFUL".

Characteristics :

DIMENSIONS	L Overall	13'10"
	B Overall	5'6"
	L Inside	7'
	W Inside	2'8"
	Pontoon diameter	18"
CAPACITY	Persons	6
	Maximum pay load	1500 Lbs
SAFETY	Number of air tight compartments	3 + 1 inflatable keel
	Number of intercom. valves	2
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	3'10" x 2' x 10"	
	3'8" x 2' x 8"	
ENGINES FOR	Weight of boat folded in bags	170 Lbs
	Fishing/Pottering, suggested HP capacity	9,5 HP
	Skiing, suggested HP capacity	25 HP
	Maximum HP capacity rating	55 HP

SPECIAL FEATURES

- Marine ply floorboards in 4 sections + bow board.
- 2 intercommunicating automatic overpressure relief valves.
- 2 anti-splash flaps on the transom, one of which is removable to allow for an auxiliary engine.
- 2 large diameter self bailers.
- 4 carrying handles + bow handle for portability.

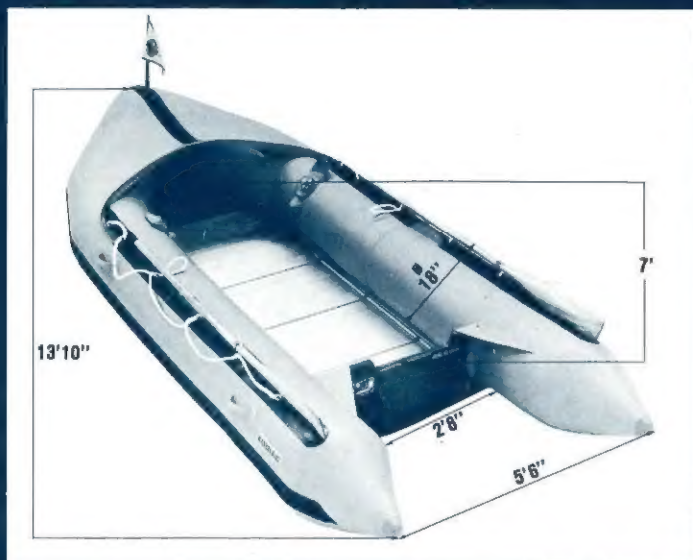

Complete lists of standard and optional equipment on last page.

MARK II GRAND RAID

"THE CONNOISSEUR'S CHOICE"

Take the perfect inflatable - A ZODIAC MARK II. Try and improve it - Result? A MARK II GRAND RAID - Difference? Aluminium floorboards, GRAND RAID styling, nickel plated intercommunicating valves and a 55 HP capacity. Still portable for two but can carry 1500 Lbs. The smallest GRAND RAID - So unique! - It could only be a ZODIAC.

Characteristics :

DIMENSIONS	L Overall	13'10"
	B Overall	5'6"
	L Inside	7'
	W Inside	2'8"
	Pontoon diameter	18"
CAPACITY	Persons	6
	Maximum pay load	1500 Lbs
SAFETY	Number of air tight compartments	3 + 1 inflatable keel
	Number of intercom. valves	2
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	3'10" x 2' x 10"	
	3'8" x 2' x 8"	
ENGINES FOR	Weight of boat folded in bags	178 Lbs
	Fishing/Pottering, suggested HP capacity	9,5 HP
	Skiing, suggested HP capacity	25/40 HP
	Maximum HP capacity rating	55 HP

SPECIAL FEATURES

- Unique aluminium floorboards in 4 sections + bow board.
- 2 nickel plated intercommunicating automatic overpressure relief valves.
- GRAND RAID styling and strength (explained on last page).
- 2 anti splash flaps on the transom, one of which is removable to allow for an auxiliary engine.
- 2 large diameter self bailers.
- 4 carrying handles + Bow handle for portability.

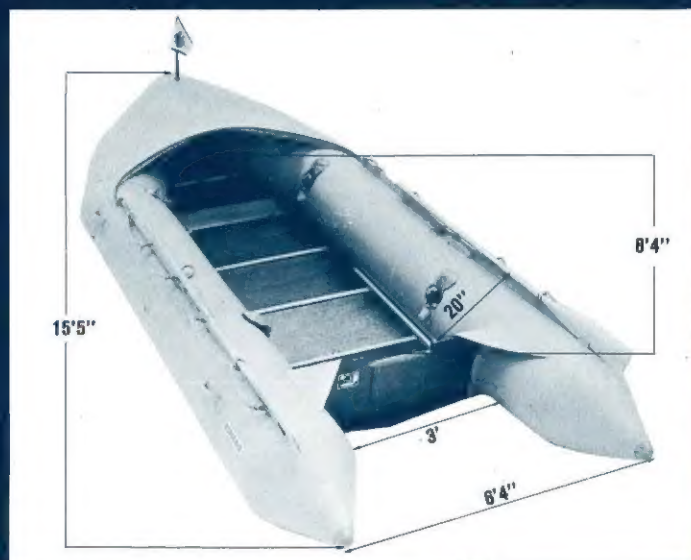

Complete lists of standard and optional equipment on last page.

MARK III

THE ADVENTURER

There are very few waters left in the world that have not been navigated by a MARK III since adventurers and explorers realized it's incredible 2300 lbs payload capacity and stability. 5 intercommunicating hull compartments fed by 4 pressure relief valves make the MARK III so safe that you may want to go and find an undiscovered sea yourself. All you would need is a MARK III ZODIAC.

Characteristics :

DIMENSIONS	L Overall	15'5"
	B Overall	6'4"
	L Inside	8'4"
	W Inside	3'
	Pontoon diameter	20"
CAPACITY	Persons	10
	Maximum pay load	2400 Lbs
SAFETY	Number of air tight compartments	5 + 1 inflatable keel
	Number of intercom. valves	4
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	4' x 2' x 11"	
	3'10" x 2' x 10"	
ENGINES FOR	Weight of boat folded in bags	211 Lbs
	Fishing/Pottering, suggested HP capacity	9,5 HP
	Skiing, suggested HP capacity	40 HP
	Maximum HP capacity rating	65 HP

SPECIAL FEATURES

- Marine ply floorboards in 4 sections + Bow board.
- 4 intercommunicating automatic overpressure relief valves.
- 2 removable anti-splash flaps on the transom for fitting auxiliary or twin installation engines.
- 2 large diameter self bailers.
- 4 carrying handles + Bow handle.

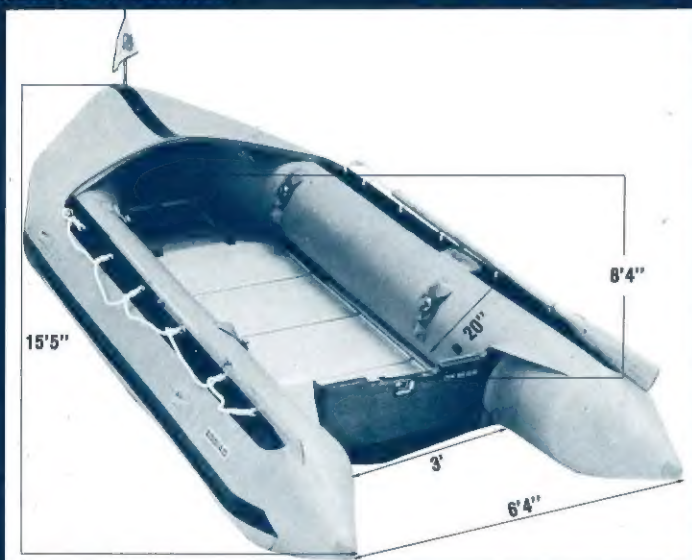

Complete lists of standard and optional equipment on last page.

MARK III GRAND RAID

THE PROFESSIONAL

So tough that you will almost never wear it out. That is why commercial fishermen, coast guards, and oil rig operators around the world depend on GRAND RAID strength and durability. Extra thick materials and Heavy Duty fittings reinforce and style this boat for conditions when only the very best will do. Unique aluminium floorboards, transom adapted for twin engine installation and the "Handmade by ZODIAC" seal of approval puts you in business.

Characteristics :

DIMENSIONS	L Overall	15'5"
	B Overall	8'4"
	L Inside	8'4"
	W Inside	3'
	Pontoon diameter	20"
CAPACITY	Persons	10
	Maximum pay load	2.400 Lbs
SAFETY	Number of air tight compartments	5 + 1 inflatable keel
	Number of intercom. valves	4
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	4' x 2' x 11"	
	3'10" x 2'2" x 10"	
ENGINES FOR	Weight of boat folded in bags	247 Lbs
	Fishing/Pottering, suggested HP capacity	9,5 HP
	Skiing, suggested HP capacity	40 HP
	Maximum HP capacity rating	65 HP

SPECIAL FEATURES

- Unique aluminium floorboards in 4 sections + Bow board.
- 4 nickel plated intercommunicating automatic overpressure relief valves.
- GRAND RAID styling and strength (explained on last page).
- 2 anti-splash flaps on the transom. Fitting auxiliary or twin installation engines is standard.
- 2 large diameter self bailers.
- 4 carrying handles + bow handle.

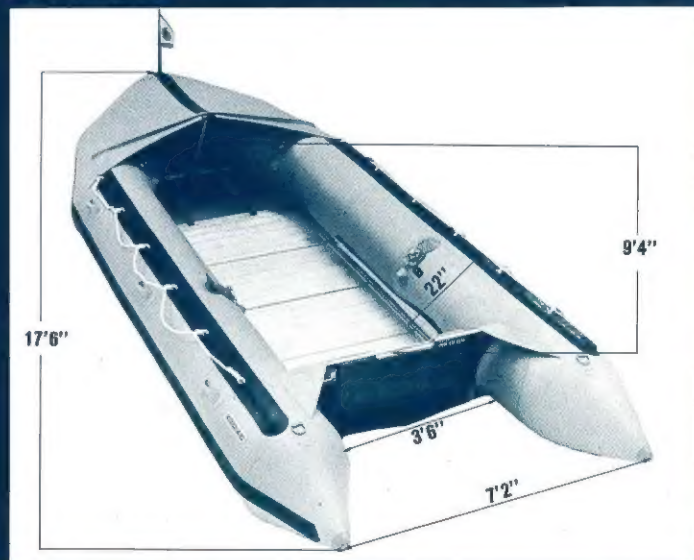

Complete lists of standard and optional equipment on last page.

MARK IV GRAND RAID

THE ULTIMATE

Many years of experience have gone into making our biggest model of the pleasure range the ultimate inflatable boat. With a payload capacity of well over a ton and room for 12 people, a single or dual engine installation can power this, the mightiest of GRAND RAIDS past existing frontiers of inflatable boating. This has always been a ZODIAC tradition. So arrange a demonstration with your dealer and be one of the few to experience the ULTIMATE.

Characteristics :

DIMENSIONS	L Overall	17'6"
	B Overall	9'4"
	L Inside	9'4"
	W Inside	3'6"
	Pontoon diameter	22"
CAPACITY	Persons	12
	Maximum pay load	2750 Lbs
SAFETY	Number of air tight compartments	5 + 1 inflatable keel
	Number of intercom. valves	4
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bags (L x W x H)	
	5' x 2'8" x 15"	
	4'6" x 2'6" x 10"	
ENGINES FOR	Weight of boat folded in bags	297 Lbs
	Fishing/Pottering, suggested HP capacity	15 HP
	Skiing, suggested HP capacity	50 HP
	Maximum HP capacity rating	80 HP

SPECIAL FEATURES

- Unique aluminium floorboards in 4 sections + bow board.
- 4 nickel plated intercommunicating automatic overpressure relief valves.
- GRAND RAID styling and strength (explained on last page).
- 2 anti-splash flaps on the transom. Fitting auxiliary or twin installation engines is standard.
- 4 towing rings.
- 4 large diameter self bailers.
- 6 carrying handles + 1 bow handle.
- 2 Foot bellows.
- 2 paddles.

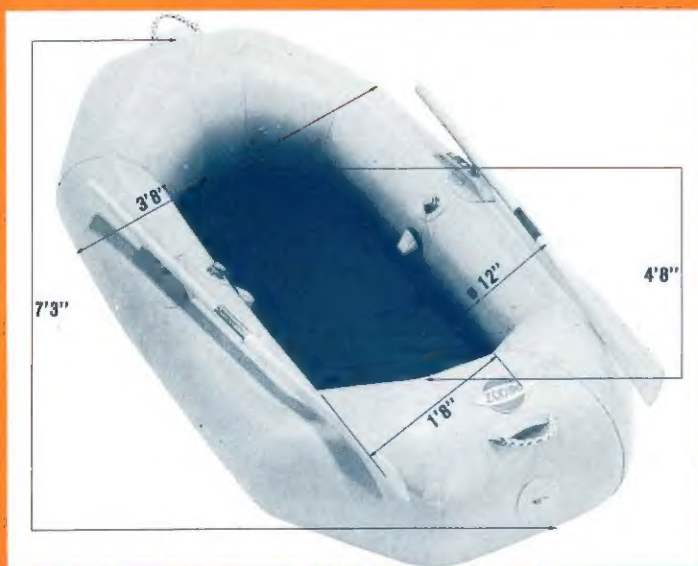

Complete lists of standard and optional equipment on last page.

YOUYOU

THE PRACTICAL TENDER

This useful little boat, designed for two or three persons, will meet all your demands. The special shape of its pontoons will ensure exceptional stability for its size. Three people sitting on the same side of the boat will not make it capsize. Fitted with optional equipment such as outboard motor bracket, floorboards, and a 2 HP engine, you will be able to go to and from your boat in absolute safety.

Characteristics :

DIMENSIONS	L Overall	7'3"
	B Overall	3'8"
	L Inside	4'8"
	W Inside	1'8"
	Ponton diameter	12"
CAPACITY	Persons	2/3
	Maximum pay load	505 Lbs
SAFETY	Number of air tight compartments	2
	Number of valves	2
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bag (L x W x H)	
	2'6" x 1' x 1'4"	
ENGINES	Weight of boat folded in bag	33 Lbs
	Maximum HP capacity rating	4 HP

Complete lists of standard and optional equipment on last page.

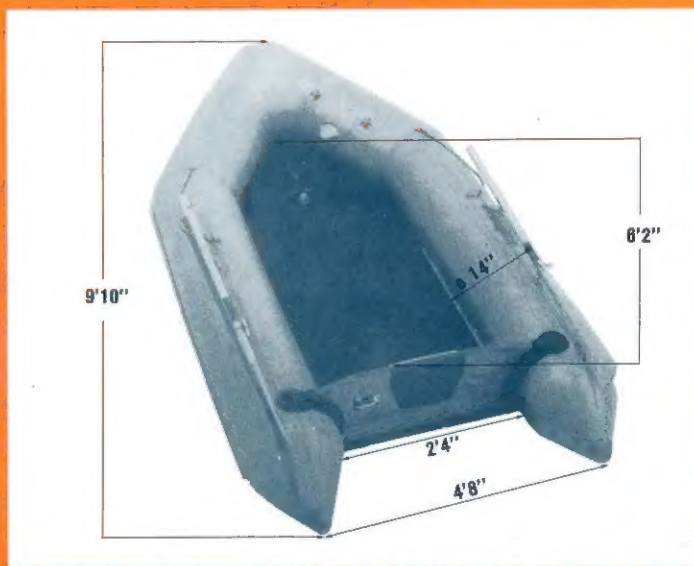

CADET

THE BOAT WITH TWO USES

Light weight and strong, it is the ideal boat for campers and caravan owners. When folded, it's dimensions are those of a small suitcase, yet it can be put together and inflated in no time to become a boat that will permit you to cruise around in safety with your family or friends. Extremely manoeuvrable it can be driven by kids or grown-ups alike.

When slung on davits, or on the deck of a boat, you will be able to always rely on its efficiency and safety.

Characteristics :

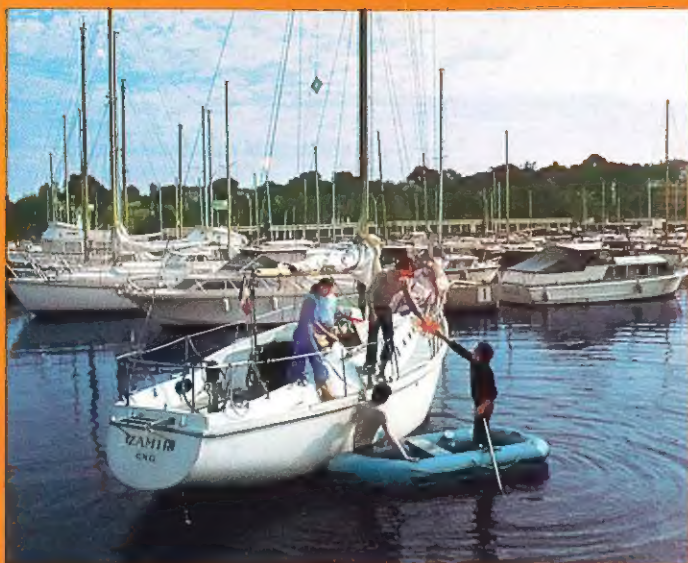

DIMENSIONS	L Overall	9'10"
	B Overall	4'8"
	L Inside	6'2"
	W Inside	2'4"
	Ponton diameter	14"
CAPACITY	Persons	4
	Maximum pay load	825 Lbs
SAFETY	Number of air tight compartments	2 + 1
	Number of valves	2 + 1
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bag (L x W x H)	
	3'8" x 8" x 1'10"	
ENGINES FOR	Weight of boat folded in bag	64 Lbs
	Fishing/Pottering, suggested HP capacity	4 HP
	Maximum HP capacity rating	10 HP

SPECIAL FEATURES

- Marine ply floorboards in hinged sections for your ease and comfort.
- Special rubbing strake, fitted completely around the boat resists chafing.

Complete lists of a standard and optional equipment on last page.

TENDER IV and TENDER VI

THE PERFECT DINGHIES

An essential unit on a cruising boat is the dinghy.

The Tender IV or Tender VI will be the link between you and the main land.

These two dinghies have been specially developed to be used as Tenders to all sailing yachts and Power boats and can be used as your general purpose boats.

They also are available at a very competitive price.

These dinghies have been chosen by the most discriminating owners, because of their many qualities and reputation.

MINIMUM OVERALL DIMENSIONS : permit you to store the Tender folded in a small corner on board or at home, or keep it inflated on deck, ready for use.

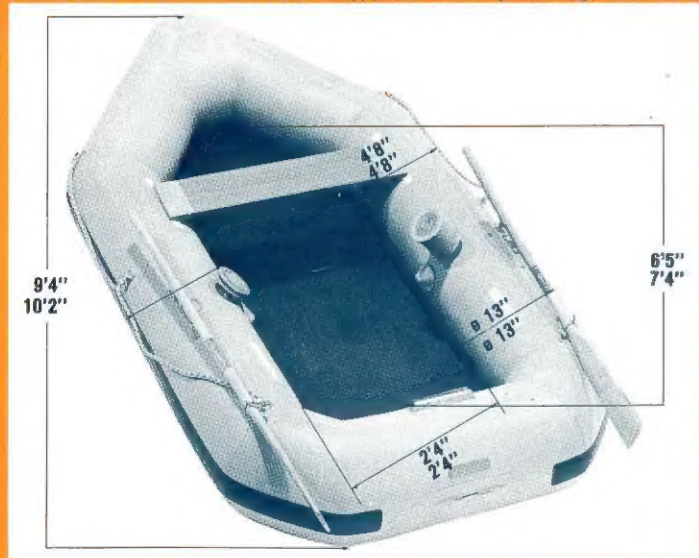

PERMANENT READINESS : easily inflated in a few minutes.

LIGHT WEIGHT : Can be carried without effort and easily launched from a boat or a pier by one person.

UNSURPASSED STABILITY : Practically uncapsizable, passengers can sit on one pontoon eliminating the risk of turning the dinghy over.

LARGE PAY LOAD CAPACITY : Will transport 4 or 6 persons or more than 900 Lbs in complete safety.

SHOCK RESISTANCE : These Tenders are also "Shock proof" and will not damage or scratch the hull of another boat, if they hit against it continuously, neither would they damage themselves.

EXCEPTIONALLY WELL FINISHED, EACH TENDER IS HAND MADE : and has the following special features :

- Two D rings for towing. These will permit care-free, strain free, straight line towing.
- A thick rubbing strake is fitted around the Tenders to prevent chafing.
- Two triangular rubbing strakes are fitted under each pontoon, for protection when pulled on rocky or sandy beaches, also they give them fantastic directional stability when rowed, towed or operated with an engine.
- An easily removable wooden seat is supplied, that attaches with Velcro strips in one of two positions. One for rowing and one for operating the engine.
- Two detachable hand bellows that permit easy topping up of the Tender.

OPTIONAL EQUIPMENT :

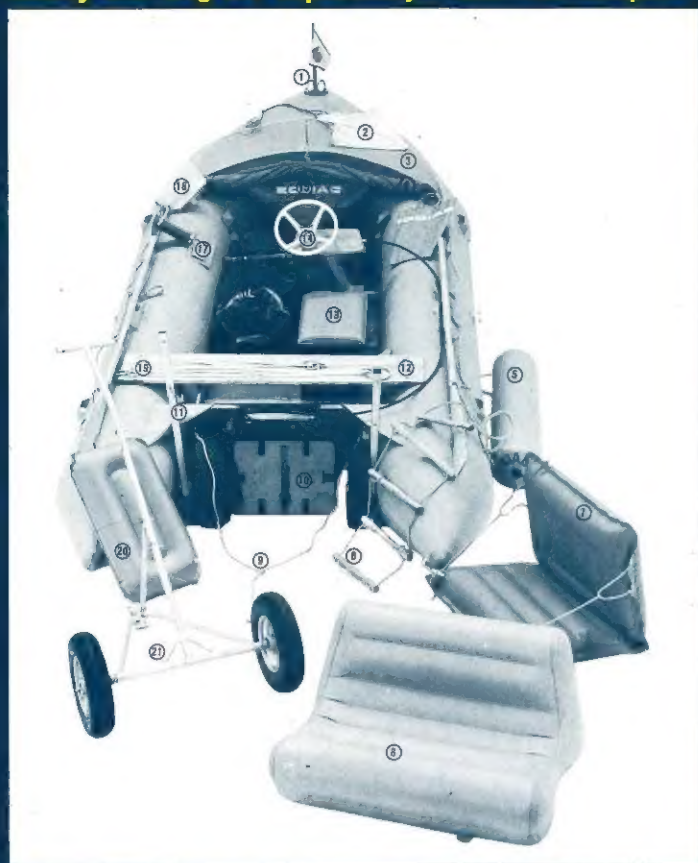

A floorboard and an outboard motor bracket are options that make life easier. You will be able to use up to a 4 HP engine on your dinghy, and you'll be all set for years of maintenance free, hard work from your ZODIAC Tender.

Characteristics :

		TENDER IV	TENDER VI
DIMENSIONS	L Overall	9'4"	10'2"
	B Overall	4'8"	4'8"
	L Inside	6'5"	7'4"
	W Inside	2'4"	2'4"
	Pontoon diameter	13"	13"
CAPACITY	Persons	4	6
	Maximum pay load	880 Lbs	950 Lbs
SAFETY	Number of air tight compartments	2	2
	Number of valves	2	2
WEIGHT & DIMENSIONS FOLDED	Dimensions of boat folded in bag (L x W x H)	3' x 1'4" x 10"	3' x 1'6" x 10"
	Weight of boat folded in bag	48 Lbs	55 Lbs
ENGINES FOR	Fishing/Pottering, suggested HP capacity	2 HP	2 HP
	Maximum HP capacity rating	4 HP	4 HP

ZODIAC EQUIPMENT

Quality and long life expectancy - Look and compare

STANDARD EQUIPMENT ON ALL ZODIAC BOATS

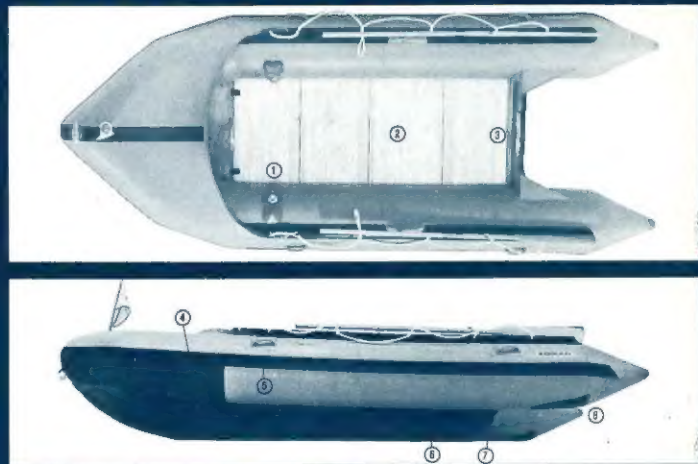

- 1) 1 set of floorboards + Aluminium stringers and bow floorboard (except Cadet).
- 2) 1 inflatable keel (except Youyou - Tender IV and Tender VI).
- 3) 2 pieces collapsible oars.
- 4) 2 rowlock supports (except Mark IV GR).
- 5) 2 oar rests (except Mark IV GR).
- 6) 2 oar retainers (except Youyou - Mark IV GR).
- 7) 1 wooden transom pad.
- 8) 1 o/b motor mounting plate aluminium (except Cadet, Tender IV - Tender VI).
- 9) 1 retaining batten for floorboards on transom.
- 10) 2 launch wheels locating plates on transom.
- 11) 2 self-bailers (except Cadet - Mark I Junior).
- 12) Life lines on each pontoon attached to lacing cuffs.
- 13) 1 sprayhood and sprayhood support (except Cadet, Tender IV and Tender VI).
- 14) 1 metallic bow carrying handle (except Youyou and Cadet).
- 15) 1 mooring line.
- 16) 1 moulded bow rubbing strake.
- 17) "D rings" for overall cover attachment.
- Carrying bags.
- 1 mast and pennant for boats with spray hoods.
- 1 foot bellows with hose.
- 1 repair kit.
- 1 assembly instruction manual.

OPTIONAL EQUIPMENT

- 1) Navigation lights green and red are fastened in the mast socket on bow of boat. Mandatory for night navigation.
- 2) Floating sea anchor. It resembles a small parachute, and slows up drifting when at a stand still. Will keep your boat head into the wind.
- 3) Windshield. Protects from wind and spray. Non rigid mounting.
- 4) Overall cover. Protects your boat, engine, and belongings, from foul weather and rain when docked or lying at anchor.
- 5) Launching rollers. Long inflatable rollers for launching or to pull boats out of the water. Deflates into a compact size.
- 6) Bathing ladder. Helps people to climb on board, it is lightweight, flexible, and sturdy, with wooden rungs.
- 7) Seat with back rest. Inflatable and comfortable.
- 8) V sling for skiing. V shaped towing sling fastens to the transom by eyebolts. It comes with an eye to which several lines can be fastened to tow several skiers.
- 9) Fuel tank supports. Aft fuel tank support: when bolted down permanently to a floorboard, the tank is secured by a belt. Bow fuel tank support: when bolted down permanently to the front fixed floorboard it helps to stabilize the boat when in rough weather.
- 10) Launching wheels. Mounted on the transom, with no difficulty can one person do all the launching operations, even with the engine on the transom. These launching wheels can be taken on board and fastened inside the boat. If dropped over board, they float.
- 11) Fisherman seat. This seat, when placed across the pontoons, is fastened to the lacing cuffs. Provides the fisherman with a stable and comfortable seat, in a high position for better visibility, and can also be used as a seat for remote control steering.
- 12) Fuel tank seat box. Very comfortable for remote steering, this seat is padded. It is bolted to the floorboards and is designed to accommodate a fuel tank.
- 13) Remote control steering assembly. Two models specially designed for our boats. Please specify your type of engine.
- 14) Forward hold-all. Large capacity hold-all attaches under the spray hood and stays suspended. Prevents your belongings from bouncing around.
- 15) Waterproof pouch. Ideal to store cigarettes, matches, cameras, lighters and important papers. Attaches itself to the valves.
- 16) Fishing rod holder. Fastens on the lacing cuff.
- 17) Collapsible fuel tank. 2 carrying handles, large filling intake hose. Available in 70 and 35 litre versions.
- 18) Lifting slings. For carrying boats on davits and launching from piers.
- 19) Seat without back rest. Placed lengthwise or widthwise, this seat is comfortable and gives lot of room to move around in the boat.
- 20) Bow launching wheels. Recommended for big, heavy boats, they fit on the bow carrying handle.

STANDARD EQUIPMENT SPECIFIC TO GRANDS RAIDS EXCLUSIVE AND UNRIVALLED STYLING AND DURABILITY

- 1) High quality of hardware used:
 - 1) Marine bronze nickel plated intercommunicating overpressure releasing valves: The unique method of inflating the entire boat from one valve, eliminating the risk of overpressure.
 - 2) Floorboards and stringers of special marine anodized aluminium.
 - 3) Transom of high grade marine mahogany/ash plywood (multy-ply).
- 2) Grand raid reinforcing.
 - 4) A thick and very tough moulded rubbing strake is fitted around the boat to prevent chaling. In addition, this rubbing strake has a unique shape that prevents water from coming up over the gunwales.
 - 5) Three triangular heavy duty rubbing strakes are fitted to the bottom giving fantastic "bite" on the water and protection when beaching.
 - 6) The exterior transom angle, where the floor meets the bottom of the transom is protected by a thick neoprene reinforcing.
 - 7) At the stern of the boat, underneath the pontoons, a layer of neoprene is glued on either side.
